OUR AMBITIONS

The Mediterranean is a unique exchange, mixing of populations and interculturalism. We are convinced of the need to implement such a project.

This cultural and economic space of the Mediterranean now enriched in the process of Euro Mediterranean, may become by associating an Olympic sport as the wrestling a vector accelerator of education through sport, development of social bonds, and acceptance other...

it all enriched by the diversity of cultures, educational approaches and formative and establishing regular and unifying event-sponsors of a new meaning to performance.

We support a team of elected officials and technicians to facilitate, promote and develop the sports policy of wrestling.

This dynamic is primarily a strategy of development of sporting in all forms but primarily in the direction: of excellence and performance, vocational training for managers and executives and education.

For this, the CMLA organizes an annual international tournament or championship of the Mediterranean. The first edition was held in Istanbul (to May 7-8-9, 2010), the second will be held in Alexandria in 2011. It consists of 23 Mediterranean countries. This championship will be declined into youth in Tunisia in 2013. Since 2011 it will be organized internship as a youth summer camp with sports and cultural approach.

For such events, our goal is to create new areas of trade, facilitation and support. Of course the effects will naturally expected induced examined issues and practices affecting areas of education, culture and economy.

We wish to associate with this initiative primarily focused on the activity of the wrestling to consider opening a rewarding and stimulating action-oriented sectors of culture and economy.

The objective is to integrate approaches of partnership and support from the business world as one of the institutions (especially Europe), our intent is to install in the duration of new types in relational involvement in this territory Mediterranean for a sustained and consistent practice sports and wrestling.

It now (2010: Istanbul, 2011: Alexandria) and with the determination that such action is taken tomorrow by all regions, capitals or major cities of the Mediterranean (Marseilles, Nice, Rome, Barcelona, Athens, Tangier, Tunis,).
