

**UNITED WORLD WRESTLING**

**TO ALL THE NATIONAL WRESTLING FEDERATIONS  
TO ALL THE BUREAU MEMBERS**

**Subject: Candidacy for the Technical Commission**

Dear Mr. President,

As you might know, all the United World Wrestling Commissions will be recomposed after the Rio Olympic Games.

The Technical Commission is really important for the decisions that will be taken for the next Olympic Cycle. In order to be able to work as fast as possible, it clearly appears that we have to start the candidacy procedure earlier for this specific Commission.

This Commission will be reduced to 7 Members in order to be able to work in a more precise and concrete manner. It will be much more active than in the past and the Members will meet several times a year to discuss important topics from the International Federation.

I am writing to you today in order to ask you if you would have a motivated candidate who wants to be involved in the technical questions, keeping in mind that he will have to work for our Sport at an international level and not for his national interest.

If it is the case, I thank you in advance to send us his C.V with a letter of motivation (written in English or French) by 1<sup>st</sup> of July 2016.

If your candidate is selected and following our applicable Regulations, we remind you that all expenses to attend the meetings have to be covered by your National Wrestling Federation.

Once again, we would like to underline the significance of this Commission and our wish to find active people who want to work for the benefit of our sport.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Michel Dusson'.

Michel Dusson  
Secretary General  
United World Wrestling
